Student Led Conferences

Dear parents,

As is the case with so many events this year, we are unable to conduct Student Led Conferences in our traditional format. As a staff, we are working to come up with workable solutions which will enable us to be in contact with our families while maintaining all safety protocols.

Since we are unable to have any of you in the school at this time, conferences will have to be conducted remotely, either by Zoom meeting or by phone. Students will be sharing their learning with you at home (either electronically or a paper version). Our aim is to have all conferences conducted during the last week of November.

Before we get too many plans in place, we would like input from our families to help us determine the most efficient method. We would ask, therefore, that each family completes and returns the following Student Led Conference Survey

Family Name: _____

1. Are you interested in being part of a Student Led Conference? Yes No

2. If yes, which method would work best for your family? Please circle one option.
 - a. **Zoom meeting** – a time would be booked for you and your child to conference with the teacher of your choice via a zoom meeting.
 - b. **Phone meeting** – a time would be booked for you to conference with the teacher of your choice.
 - c. **Family session** – a block of time would be booked for you and all of your children to conference with all of their teachers. This would be done via a Zoom meeting.

PLEASE HAVE THIS SURVEY COMPLETED AND RETURNED TO THE SCHOOL BY NOVEMBER 9
