COVID-19 Update  
March 17, 2020

Coronach School Families

As shared yesterday, Saskatchewan school closures are in place indefinitely. We are unsure as to the length of time schools will be closed. As we receive further direction, we will be certain to relay that information to our families.

The school would like to thank all our families for being so understanding and patient during these times of uncertainty. Currently the staff at Coronach School are working together over the next three days to plan and organize various ways for educational learning to continue and be accessible to all our K-12 students through home-based programming, which will be supported by our teachers. Next week the school and teaching staff will provide further direction and guidance of plans moving forward to ensure students can continue to learn, grow, and develop their skills. Please continue to follow us on Facebook and check your emails regularly so that you have current and up-to-date information.

Currently, if your child(ren) need any personal items please come to the school between 8:30-3:45 before Friday to pick up belongings. Report to the front office so that we are aware of who is coming/going in the building. For students that have any outstanding work, or assignments that you were currently working on in class, you are encouraged to focus on completing those tasks. Once completed you can submit your work either electronically, to your teacher, or submit hard copies of your work to the office before 3:45 on Thursday.

Moving forward, we all play a significant role in helping children feel safe and cared for during uncertain times. We encourage you to share the following tips in order to support the emotional wellness of everyone in your home:

- **Take care of yourself** – continue to engage in healthy, positive activities that you enjoy. Healthy adults create healthy children.
- **Model calm and be reassuring to your children** – let your children talk about their feelings, fears, and ask questions. Responding calmly will positively influence your child's emotional responses.
- **Maintain normal routines** – maintaining routines provides a sense of comfort and reassurance. Seek out and maintain fun activities as a family.
- **Monitor and limit media/social media exposure** – excessive exposure is linked to an increase in anxiety and worry. Limit your own exposure to reliable sources.

As always, please contact the school at 306-267-2210 with any questions or concerns that you have during this challenging time. We are here to support you and work together moving forward.

Cheers,

Mr. N. Beselaere  
Coronach School, Principal  
Prairie South School Division #210
