Dear Parents:

I wanted to send a quick note today reminding you of youth COVID-19 vaccination opportunities happening this week. I was glad to learn of the high numbers of students who attended last week's clinics to receive their first vaccination.

4 clinics will be happening in the next week with a focus on school-aged vaccination for students aged 12-17. If you have previously completed a consent form and returned it to the school, Public Health will have these available. If you haven't completed a consent form, additional forms will be available at each clinic. Forms are also available at the following link:
