Alternate School Calendar Meeting and Vote Night

The Rouleau School Community Council (SCC) was present at the student led conferences March 20th and 21st to distribute information packages to all Rouleau School families and to answer any initial questions at that time. With the information now in the hands of all of our Pre-K – Grade 12 families, and some time to reflect on its contents has been provided, the SCC will once again be contacting families, this time by phone, one day next week. It is our hope as a school community that we will have representation of all of our families at the April 24th meeting. While a minimum of 70% in attendance is needed to proceed, we would prefer to have 100% of a voice to move forward confidently in the direction communicated in the vote that evening. We will also be taking numbers for supper and discovering our babysitting needs for the evening. We cannot stress enough the importance of attendance at the meeting, as information will be most accurately received first hand. However, if your family is out of town that night, the exploration of an attending proxy will be considered. We look forward to our conversations in the days to come.

Grade 11/12 News

ELA 20/30

In ELA B30, the students started the semester with a 'Search for Selfie' assignment and, as our first unit on World Literature moved forward, they identified how the characters in each piece of literature were on their own 'Search for Self'. Next, the class worked on group poetry assignments and presentation, and they completed a Literary Analysis. Currently, we are studying the novel *Lord of the Flies* by William Golding. Students will be creating visual representations for different aspects of this novel, doing an oral research presentation, and writing a Comparative Essay. Once we complete the novel, we will be reading William Shakespeare's *Hamlet*, followed by *Death of a Salesman* by Arthur Miller, and ending the year with Elie Wiesel's *Night*.
