Principals Message

September is over and the month flew by! The staff here at AES has tried extremely hard to keep the routine very similar this September but with a few tweaks. We are having alternate recesses in designated zones, staff and students have their masks on during times in the classroom and hallways, and we are trying to have as much Phys Ed outside as we can. Thank you to all the parents and most definitely the students for understanding as we work our way through this 2020-2021 school year.

AES took part in the annual Terry Fox Walk this past Friday, September 25th. We kicked off the walk with a ZOOM meeting and video and the classes went for walks in their cohorts throughout the day. Again, not the way we usually run it but thank you to everyone for being flexible and supporting this great cause.

Please take note of the attached flow chart when your child develops symptoms while at school or home. This chart is provided by Prairie South and you can use these steps if you have any questions when to send your child back.

Thank you again for all your support during these unique times at AES.

Save Money on Food

Try the following tips to help save money when feeding your family.

Plan before you go

- Make a list of you want to eat for a few days.
- Make a grocery list.
- Check what foods you have on hand. Use up fresh foods first.
- Get creative. Modify recipes to include foods you already have.
- Use less costly protein rich foods such as eggs, lentils, beans or canned fish instead of pricier meats.
- Plan for leftovers. For example, if you have roasted chicken one meal, use the leftovers to make a chicken stir-fry for another meal.
- · Plan for homemade meals more often than eating out.

While you are shopping

- . Stick to your grocery list. Choose a time when you are rested and not hungry.
- . Try frozen or canned vegetables and fruit if fresh are more costly or not available.
- Buy large packages of meat, poultry and fish. Divide the food into smaller amounts. Label and store extras in the freezer.
- Compare the prices of different brands. Generic brands will often cost less.
- Watch for sales. Milk, cheese and bread can be bought on sale and extras stored in the
 fercage.
- Freeze fresh vegetables and cooked legumes for later use in soups, stews and sauces.
